INSTRUCTION MANUAL

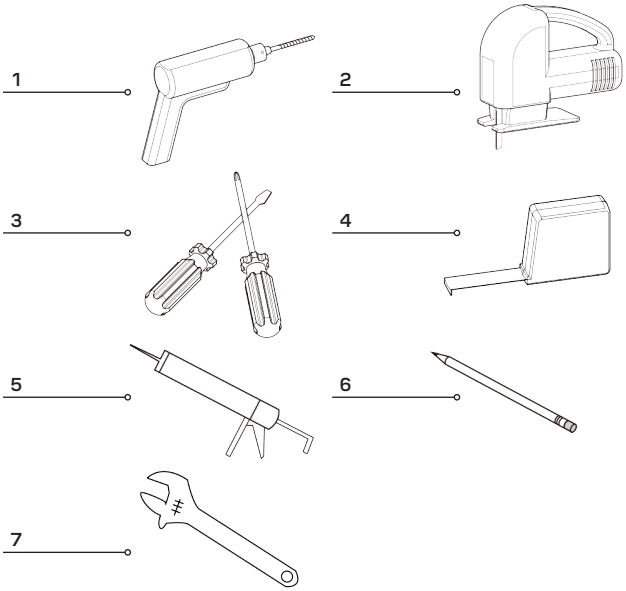

STAINLESS STEEL DOUBLE KITCHEN SINK WITH WORKSTATION SET HANKO

SINK INSTALLATION

Cut and place template at desired position on countertop. Using a pencil, mark the location of the sink hole. The operation guide paper above comes with the product.

NOTE: this template is only a guide. Actual sink should be used to ensure perfect cut-out.

TIP: after silicone cures, wipe inside edge with denatured alcohol. This will smooth out any rough areas.
Sink edge may be sharp; handle with caution. Do not install a damaged sink; inspect carefully.

FOR TOP-MOUNT INSTALLATION (DROP-IN)

STEP 1
Drill 4 corner holes 0.5 inch in diameter

STEP 2
Cut along dotted line to connect holes

STEP 3
Check hole size

STEP 4
Apply silicone sealant along edge of sink

STEP 5
Carefully insert sink into countertop hole and press down

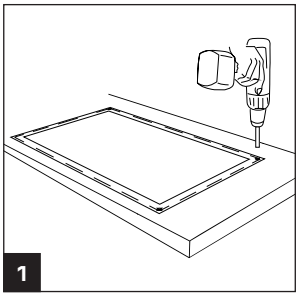

STEP 6
Thread screws into clips

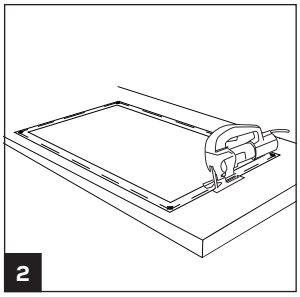

STEP 7
Slide screws with clips along glide of sink

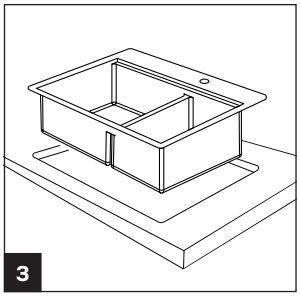

STEP 8
Place bracket over sink lip and insert screw through bracket into installed anchor

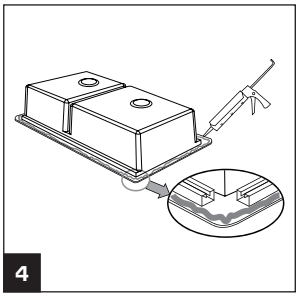

STEP 9
Tighten all screws

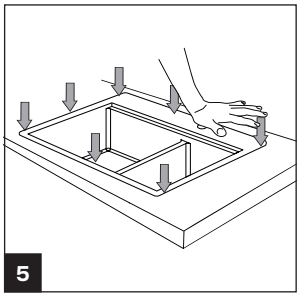

STEP 10
Clean

1	Cap
2	Basket
3	Metal bowl
4	Foam Gasket
5	Rubber Gasket
6	Lock Nut

WARNING

1. Read and understand all instructions. Failure to follow all instructions may result in injury and/or damage.

2.The warnings, cautions and instructions discussed in this manual cannot cover all possible conditions or situations that may occur. Users must always be aware of their environment and ensure that they use the product in a safe and responsible manner.

3.DO NOT modify the product in any way. Unauthorized modification may impair the function and/or safety of the product and may affect the life of the product.

4.Check for damaged parts. Before using this product, carefully check that all parts are in good condition and that the product will operate properly and perform its intended function. Check for damaged parts and any other conditions that may affect the operation of this product. Replace damaged or worn parts and never use this product with a damaged part.

CARE AND MAINTENANCE

- Avoid harsh, abrasive cleaners and other corrosive chemicals. Do not leave salt in sink or store sink near saltwater environments.
- Rinse surface thoroughly with hot water after using soaps and detergents containing chlorides to prevent corrosion.
- Do not use scouring pads, carbon steel brushes or steel wool for cleaning. Iron particles left behind can lead to rust.
- Avoid the use of oily rags or greasy cloths when wiping sink surface. Wipe dry after use to prevent water spots.
- Use a high-quality stainless steel cleaner and follow instructions included with it. Wipe ALONG the grain (NOT against it).
