ACERYNOX

ACID DETERGENT

For evaporator pans

BMR

GROUP

1501 Ampère street, suite 200
Boucherville (Québec) J4B 5Z5
450 655-6700
1 800 361-0885
bmr.co
agrizone.co

Features

Sizes 3,78 L

Advantages

- **Agrizone exclusivity**
- Acid detergent based on phosphoric and nitric acid
- Allows efficient cleaning of stainless steel evaporator tips
- Can also be used to clean lime scale from stainless steel on food and industrial equipment

Manual of use

- Put water in pan. Add the product. Suggested usage level: 0.75 to 2 liters per 100 liters of water (depending on soil level).
- Heat the solution without boiling.
- Soak for 12 to 24 hours.
- Rinse thoroughly the pan with drinking water before reuse.
- Fill the pans again with fresh water and boil for 15 minutes to make sure that no acid residue remains.
- You could use a nylon brush if necessary for stubborn residues.

Use directions may vary depending on application and dirt level..
