### Animal welfare

Cows need to rub and scratch. The brush ensures a cleaner coat by removing dirt and debris. It contributes to well-being and allows cows to concentrate their energy in milk production. The animals are calmer and feel better.

### Features

- **Agrizone exclusivity**
- Adjustable auto start (5 to 20 degrees)
- Adjustable auto stop (30-90 seconds)
- To ensure long bristle life and efficient brushing during brush lifetime, the rotation will switch direction every half hour
- Automatic stop and reverse for 10 seconds if too much resistance
- 39 in. (1 m) contoured brushes for back and side brushing
- 100 V or 200 V power supply
- Easy access to safety switch
- Foldable arm to free the corridor or to deactivate the brush
- Steel construction with powder coating
- Long arm to allow passage on each side
- 2-year limited warranty
- **Government grants available** for the welfare and productivity of the animals. Certain conditions may apply, additional information is available on the MAPAQ website
